

**NEW  
VERSION**

# NAILHOLE REPAIR

**EASIER THAN EVER BEFORE!**

**The new PREMA Combi Repairs are ideal for the quick, safe and permanent repair of punctures in the tread area.**

- **NEW:** The new PREMA Combi Repairs make nail hole repair even easier and safer
- **NEW:** The bonding solution on the shaft and plate ensures an even more secure connection between the tyre & repair body
- **NEW:** No more annoying removal of the protective film
- **NEW:** Packaging in a practical thermoformed part protects the bonding solution from unwanted soiling

## Technical advantages

- ✓ Combined inner/outer repair of tread punctures in radial and cross-ply tyres
- ✓ Prevents the ingress of moisture, dirt or stones, which can lead to premature destruction of the carcass or belt
- ✓ The continuous bonding solution on the shaft and plate reduces the risk of any air pockets
- ✓ PREMA Combi Repairs vulcanise themselves into the tyre
- ✓ PREMA Combi Repairs are only suitable for use with PREMA PFC, ultra-fast drying vulcanising cement
- ✓ Packaging in a practical thermoformed part protects the bonding solution from soiling
